# ART OR A FART

Open your eyes  
look around, in and round  
brave and crowned, with the sound.  
Far Away, In and Out  
Above and underground  
**We're checking our history from the top to the ground (2x)**

I have a doubt,  
where's your heroes?  
Who's your crowd?  
How many zeros  
In the account  
Pay with dollars  
Or with Euros  
Zeroes what  
Art is about

**Who's your heroes?**  
**Who's your crowd?**  
**The art heroes?**

Look Daddy  
Meet Daddy  
Ancient greek  
Body

Father of Art  
Our start  
You're still in here, shawty

We are sure  
To the core  
This is not a metaphor

This is a legacy  
Of art supremacy  
For an eternity  
Opened a door

**From Daddy to Dada**  
**Some art is worth Nada**  
**Some art is worth something**  
**And some is worth Prada**

Who's in charge?  
Who's the judge?  
Who's the judge in charge of the church?  
Who's the one in charge to stamp the course of history  
and decide if it is

Art or a fart?  
That is the question that you put a apart  
You gotta pick a side  
Although that side is still so  
Far away from your heart  
Why should I care?  
Y'know it ain't fair  
You make me square  
(You)'blige me to feel  
What just isn't there  
It's just not there.

**We're taking our history to court**  
**We're taking art history to court (2x)**  
But justice ain't there

(it's just not there)

This you said  
Someone said to  
Someone to someone  
To someone sad  
That the story seems one-sided or..  
..or am I maaaaaad?

**Art or a fart?**  
**That is the question that you put a apart**  
**You gotta pick a side (2x)**

DADDY  
YOU  
DISTRACT  
US!

I feel like a cactus  
The value of art,  
All depends on the status

Adjusting my eyes  
To the real full blackness  
To see the unseen  
In the light of the darkness

Why you chose me?  
To see what I see?  
An army of ants  
By Mr. Dali

You tapped my unconscious and  
Made me remember  
That once I was  
Hurt by the sting of a bee  
A bee.  
A bumblebee.  
A humble bumblebee  
I'm your humble bumblebee.

((Cats are my pets, so do rats))

Look what I found  
**What did you find?**  
Something of value.  
**Something of value?**  
**Where did you find it?**  
In the valley of values  
**But who decides the value?**  
And who decides my value?  
**And who decides the volume? (1, 3x)**  
**And who decides?**

Mondrian  
**Overvalued**  
Malevich  
**Overvalued**  
Jeff Koons

**Overvalued**  
Cunningham  
**Undervalued**

Andy Warhol ??  
**Overvalued**  
Andy Warhol ??!  
**Overvalued**

What??!  
How to explain how important he is?  
**From the start!**  
How can i show you the value he has?  
**Through his art!**

Why can't you see  
What I see  
It's not  
About me

He had a vision  
How could you dismiss him  
All soup cans he painted  
Would get you to fart  
He took the mundane  
And he made it to artform, it's  
**Warhol**  
**You're digging yourself**  
**A messy war hole**  
**This crazy discussion starts**  
**A war hole**  
**These questions will launch**  
**A world war hole.**

**Statue**

Hey There  
I see you got aware  
The value of Art  
Is not Fair

Lemme tell you something  
Lemme pull you some strings  
To connect the black and white dots

And kill the Chess King

Behind every Carte Blanche  
There's a Carte Noir  
Behind Evolution  
There's a scenery of war

So little to say  
So urgent to say it  
Don't sleep little baby  
Cuz I'm gonna nail it

**Hey There**  
**I see you got aware**  
**The value of Art**  
**Is not Fair**

**Lemme tell you something**  
**Lemme pull you some strings**  
**To connect the black and white dots**  
**and kill the Chess King**

**To connect the black and white dots**  
**and kill the Chess King**

You know that the valley  
Of the values  
Isn't only there to set  
The pricing of the statue

What about the standards  
Of different lives?  
Were they born to suffer  
or be blessed with universal rights?

**You know that the valley**  
**Of the values**  
**Isn't only there to set**  
**The pricing of the statue**

**What about the standards**  
**Of different lives?**  
**Were they born to suffer**  
**or be blessed with universal rights?**

Wealthy land = poor people  
- It's a curse!  
Life's a chess game  
White piece attacks first

**Let me see if I let you pass through**  
**Show me your passport**  
**And I will see if I let you pass through**

Show me your passport  
And I will see if I let you pass through

**Show me your passport**  
**And I will see if I let you pass through**

Show me your passport  
And I will see if I let you pass through

**Show me your passport**  
**And I will see if I let you pass through**
